- “English language level 7, English literature Level 8 and Maths level 6. You have brought her grades up from 5-6 in English and 4-5 in Maths. She is now taking English Literature and A level religious studies and Philosophy and also politics. Your lessons on Tuesdays in English and Maths pushed her to her limits and to what I knew she was capable of, and that hard work is down to both of you. I recommend anyone to get you teaching them in their last 2 years or even more if able as you are a brilliant teacher”. Parent Cara 2024

- “Julie is one of my very good friends and tutored my son throughout the years. He was homeschooled the last year and Julie was more than a tutor for Jack she was a friend a teacher and was strict with him, being homeschooled this was the push he needed. And wow did it pay off. Julie always checked in with me updating his progress and using structured Criticism for future learning needs. Seeing a change in him mentally through nurturing him into his GCSEs was priceless! Money just can't buy that. 🥰 the change in Julie built a solid trustworthy relationship with Jack and had a great bond which made learning maths and English more pleasant and less of a chore . Julie is extremely reliable and goes above and beyond for her students. With her dedication and way of teaching Jack got the grades he needed to now go onto college with confidence. Julie will be an absolute asset to have as a tutor for you children I recommend 1000%
Well done 🙌 much love.” Kim Parent 2023

- “The Julie tutored both my sons for their English GCSEs. My eldest son achieved 2 grades higher than his predicted score back in 2019. Julie is warm and friendly. She made them feel at ease and brought the best out of their abilities. I would recommend Julie for tutoring. My youngest son just has to wait his results in August”. Parent 2023
- “Julie has been a godsend for my son Dylan. He was struggling with English and really lacked motivation- a typical boy. Julie broke down what he needed to do to pass his GCSE’s - gave him brilliant notes to refer to when he was revising and a structure to apply to his answers. His confidence grew and by the time of the exams he was as prepared as he could be. Thank you to Julie, I would recommend her to parents who are looking for a tutor for English without hesitation”. Susan Parent 2023

- “. I decided to get a home tutor for my eldest daughter because she was struggling with English at school. I wanted to find a specialist in the subject, I happened to mention this to my friend. She recommended Julie. Julie tutored her daughter when she was doing her GCSE's. Julie was excellent, she was polite, proficient, and patient. My daughter was really happy with how she broke learning down into smaller chunks, she was so good that my younger daughter and son started tuition with her as well. Julie also helped them with their GCSE Maths.

My eldest daughter got a grade 6 in English Literature, a grade 4 in English Language.

My son got a grade 5 in English Literature, a grade 4 in English Language.

My younger daughter got a 5 in English literature, a grade 5 in English Language.

If it wasn't for Julie I don't think it would have been possible for my children to pass their GCSEs in order for them to progress onto the next stage, my son had to re-sit his English Language to gain entry at university, Julie gave him the confidence to re-sit and he passed. My eldest went on to college to do A-Level English Literature which she passed.

Julie tutored my children for four years, I feel I made the right decision at the right time, I have recommended Julie to friends and family as I was totally satisfied with her services.

Thank you Julie.

- “To Julie, most people would have run for their lives based off what I told you prior to meeting Nathan. Not you- you love a challenge. Thanks for teaching the unteachable child. He might not have excelled in the way we hoped but you have shown him that he can achieve, he can learn, and he can aspire goals. Thanks for the superhuman effort. I really

appreciate everything. This is a child that would melt down at the sound of maths, has now found his own way. He will strive in life with the skills you have taught him". Parent Cara 2017
